

THE CONVENIENCE OF TIER PACKAGES

Our designers have curated packages that draw inspiration from current trends yet hold longevity of style as a guiding principle. The goal is to create a community with homes that harmoniously stand together as an elegant neighborhood we can all be proud of.

Tier 1:

Well appointed homes. There is no such thing as a basic outfitted home in this development. This Tier is where the high standard of DeerView Heights homes begin.

Tier 2:

Now you are getting into a house that stands apart from many others. Taking the same formula of chic packages, this Tier is a step-up towards something even more special.

Tier 3:

The best of the best Tier. These finishes will not only impress your guests but will also put a smile on your face every time you come home. A level above the rest.
